Denison College Junior School Report 2015

Cross-campus, cross-curricular, re-engagement and transition projects have been the focus for the College Junior School in 2015. These projects aim to give our students experiences beyond the classroom, to engage in real world situations and to extend their skills, as well as providing them with the opportunities to work with other students and teachers from across the college.

Bell Shakespeare

Bell Shakespeare came to Bathurst for the HSC Seminar Day at Charles Sturt University and the students from the Junior School were lucky enough to work with the company the day before in the Bathurst High Campus Performing Arts Theatre. In a two hour afternoon session, 40 Year 10 students and their teachers from across the college, participated in a practical workshop exploring the themes and unpacking the language of the play Macbeth. Both students and teachers enjoyed the experience of experimenting with the Bard’s work, working collaboratively and extending on their classroom knowledge.

The Mind Marathon

The Mind Marathon is an annual gifted and talented event that takes place at East Hills Boys High School and in August this year, twelve Year 8 students travelled to Sydney to participate in this event. Denison College entered one boys team and one girls team and the students involved included; Ben Roffe, Max Currie, Charlie Lew, Carl Nichols, Lydia Nichols, Jemima Wairne and Jessica Kennedy. The students worked together to problem-solve, investigate and explore topics from the core learning areas of English, HSIE, Maths and Science. The students competed against schools from across the Sydney region and although they did not win the competition, they represented the college with confidence and enthusiasm. They were intelligent and engaged ambassadors of Denison College. The students performed particularly well in the general knowledge component.

Kids Teaching Kids

Throughout Terms 2 and 3, students from 7D have been involved in the Denison College, Kids Teaching Kids Enrichment program. This was a cross-campus, project-based learning initiative, that required students to choose a topic, research it thoroughly and develop a workshop to teach other students about environmental concerns, in particular, issues based around sustainable agriculture.

The program began with a launch day in May at the Bathurst High Campus off-site agricultural farm, where guest speakers from Local Landcare and the Kids Teaching Kids program, discussed issues of sustainability and ran workshops with the 60 students. We also enjoyed a BBQ lunch and a tour of the school aquaculture facility. Thank you Mr Matus! The students then spent a number of half days working together looking at the different ways people learn, while developing and practising their workshops at both Bathurst High and Kelso High Campuses. The culmination of this project resulted in the workshop showcase. All eight groups were required to present their workshop to their teachers and to each other and were critiqued on both their information and presentation quality. The students covered topics including water sustainability and paddock to plate, using science experiments, theatrical performances, songs, comedy and sporting activities to teach each other.

From this showcase day, one group from each campus was selected to represent our school at the Kids Teaching Kids Regional Secondary Schools Conference at Red Bend College in Forbes. The students represented the school with confidence and clarity and the day was enjoyed by all, even with our disastrous bus breakdown on the way home.

Well done to all of the students involved in the program!
Faculty Collaboration
Faculties have worked collaboratively to develop opportunities to extend and enrich our students across the College. The English faculty provided opportunities for cross-campus debating competitions for Year 7 and 8 during Semester 1. The first Denison College Theatresports Competition also took place in Semester 1 in the Bathurst High Performing Arts Theatre, with over 60 students from across the College working collaboratively to create performances together. In Semester 2 the maths faculty developed a mathematics and problem-solving day for the top Year 7 and 8 classes to extend their skills and knowledge.

Iexplore
The Iexplore Year 6 into Year 7 Transition Program continued to run successfully throughout 2015. Students from our partner schools came to Bathurst High Campus one day per term to participate in a range of classes, workshops and activities to better prepare them for High School life. Classes that ran in 2015 included Science, Visual Arts, Food Technology, Geography, History, Creative Writing, Japanese, PDHPE and Agriculture. In addition, specialist whole day workshops also ran for talented students in the areas of Dance, Drama, Band and Choir. This year we also introduced a one day Information and Communications Technology (ICT) workshop run by Mr Grant for interested students and this day allowed students to explore the google platform and make their own App.

The Year 5 Science Enrichment Program continued this year to provide enrichment and extension for gifted students in our primary schools. Classes took place Wednesday afternoons on a fortnightly basis from Term 1 until the end of Term 3 and were taught by science teacher, Lisa Cebokli. The focus for this group was on problem solving and higher order thinking skills. It culminated in an open class where parents could come and assist their child in the making of a bicarbonate rocket, which was later launched on the oval.

Another program was introduced to the Year 5 Iexplore Enrichment Program in 2015 for gifted students within the areas of Creative Arts. This program began at the start of Term 2 and continued until the end of Term 3. The students involved applied to be a part of this program and were taught by Miss Veronica Manock. Students engaged in workshops exploring elements of Dance, Drama and Music. A showcase for parents was held in the Perfoming Arts Theatre in the last lesson and the talent demonstrated at such a young age was exceptional.

School Within a School
A variation of the School within a School alternative Stage 5 Program ran in 2015 with a new cohort of students. This Denison College initiative provides a varied curriculum for Year 10 students, giving them the opportunity to finish Year 10, while gaining some highly valuable skills along the way. The program of study for 2015 has included studies in Hospitality, Workplace Communications and has included work experience. The students worked with a number of staff from TAFE and were also mentored by Maresha Downey in Terms 3 and 4.

The TAFE Hospitality program included the opportunity to cook for the college staff involved with the program as a part of the TAFE restaurant. The SWAS final graduation is planned for December this year.
Aurora College
Aurora College is an academically talented virtual school, which was only established this year and has developed from the previous XSEL program. Bathurst High Campus has had a number of students involved in the Aurora College Gifted and Talented Provision in Years 7 and 10. The students involved, work independently to complete the subjects of English, Mathematics and Science connecting online with their teachers and class members, who could be located anywhere in NSW. This year the cohort of students involved was so large that we needed to create a senior and junior connected learning space. The students attended a residential camp in Terms 2 and 4 at Hurlstone Agricultural College to meet their teachers face to face and were involved in workshops and excursions during the camp aimed at advancing and extending their skills. The students involved in this program include; Eve Currie, Abdellah Islam, Harriet McLean, Brenna Nichols and Molly Peters in Year 10 and Zachary Haynes, Harvey Shead and Sabine Trevillion in Year 7.

Congratulations on all your hard work throughout the year your patience and resilience has been noted!

Integrated Studies
This is a subject that has been studied by all Year 7 students in 2015. One period per cycle has been spent working with Mr Grant in the library to develop digital literacy and research skills, aimed at assisting students to present assignments and assessment tasks in other subjects. The other three periods are spent with their classroom teacher looking at range of topic areas and has a project-based learning focus. This year they have studied the topics of; Inspirations and Aspirations, Culture and World Harmony and Inventions and Innovations. The aim of this course is to develop student skills in communication, reflection writing, group and independent learning, problem-solving and cross-curricular perspectives.

For the Inspirations and Aspirations topic in Term 1 we had two guest speakers come and speak to the students, Jennifer Browning, a sports journalist for the ABC and former student of Bathurst High Campus and Ashley Rees a local author and business entrepreneur. Students were required to write a article for their class magazine based on one of these speakers. A project-based learning task that all students were involved in is the Harmony Day Travel Exhibition that took place in the school gymnasium on Friday 4th September. Each class decided on a country or a number of countries to focus on and researched that culture. The exhibitions that were presented on the day consisted of decorations, food stalls, performances, powerpoint presentations and information reports regarding their chosen country to share with other students in Years 7 and 8, parents and teachers. The countries represented on the day were; USA, India, Sweeden, France, Ukraine, Jamaica, Spain, Mexico, Greece, Canada, England, Brazil, Germany and Italy. The students, parents and teachers viewing the exhibitions were required to vote on three categories; the best overall display, the most informative and the most entertaining. Overall the exhibition was a huge success. The students enjoyed the morning and learnt much about different cultures in the process.

Overall 2015 has been a varied and exciting year full of activities in the junior school. Well done to all students on their involvement and achievement!

Miss Cassandra Burt
Head Teacher Teaching and Learning Junior Studies (Rel).

Junior School
High Achiever’s 2014 Reception
Over 200 people attended this year’s celebration on Tuesday 3rd February at the National Motor Racing Museum. We were very pleased to be hosted by Councillor Gary Rush, who hosted a Mayoral Reception to honour our high achievers from Years 10, 11 and 12 (2014). The evening was a wonderful success, with many families enjoying the opportunity to visit this wonderful facility.

High Achievers 2014 were:
**Year 12**: Caitlyn Davis, James Siegert, Kyne Hanlon, Hamish Starr, Jessica Fearnley, Madison Muller, Fin Murphy, Kaitlyn Scarborough and Emily-Jane Woodhead.
**Year 11**: Emilie Jeffreys, Bradley Stratton, Cleo Wallace, Storm Bartlett, Ben Fearnley, Jessica McLeod, McKenzee Newton, Mackinlay Tikoft, Shennae Webster, Madeline Whittaker, Samantha Leckie, Breezy Jacobson, Cameron Jones, Danika Smith, Grear McAdam, Sarvin Sadrzadeh and Madison Phillips.
**Year 10**: Brianna Woodhead, Sophia Pant, Stephen Chapman, Emma Warburton, Kieran Lindsay, Annabel Tremaim, Georgia Browett, Cynthia Lautaru, Sophie Ryan and Isaiah Radburn.

Preliminary Study Day
197 Year 11 students from both campuses attended the Preliminary Study Skills Day held at Bathurst High Campus on Tuesday 31st March. This was a phenomenal response and it was a great chance for students from both campuses to use the new facilities of the Performing Arts Theatre. Sessions included Note Taking, Exam Preparation, Time Management and establishing a study timetable.

CSU Future Moves and YourTutor
CSU Future Moves piloted the YourTutor online tutoring service in 10 selected partner schools across the Central West and Port Macquarie regions in 2015. Due to the strong working relationship between Charles Sturt University and Denison College we were invited to participate as part of this pilot. YourTutor is an online tutoring service operating 3pm-10pm Sunday to Friday. YourTutor includes access to Maths, English, Physics, Biology, Chemistry, plus assignment research for all subjects, writing and grammar, and high school and university study skills. More information is available on the YourTutor website www.yourtutor.com.au. This service was provided free of charge to our students by Future Moves.

Central West HSC Seminar Day
On the 16th June students from both the Bathurst High and Kelso High campuses of Denison College joined students from ten other Central West High Schools participating in a day of revision for their upcoming HSC exams.
Students were particularly engaged by Bell Shakespeare presenting on The Tempest and Hamlet, specialist English presenters Jane Sherlock and Ben North, specialist Modern/Ancient History presenter Ken Webb and specialist Mathematics presenter Morris Needleman. Future Moves presented Time Management and Exam and Study Skills.
Excellent presentations were given by Bathurst High teachers: Janine Browning (General Maths), Jacqui Hood (PDHPE), Mick Hogan (Chemistry), Sally Hennessy (CAFS), Sandra Chapman (Ancient History), Ilisa Newell (Legal Studies) and Cassandra Burt (Drama). Students also had the opportunity to go to lectures in a wide range of other subject areas.
A special thank you should go to Wendy Murphy from Kelso High for her excellent coordination of the Seminar for all the Central Western schools.
Future Directions
Future Directions is the process that we use across the college to support students in planning for the transition from Year 10 to future study or work. It involves the Future Directions Evening which was held at BMEC this year on Wednesday 23rd July. In addition to having the Year 11 2016 Subject Selection Procedures outlined, parents and students have the opportunity to talk to teachers from both campuses about the wide variety of courses available for study and meet representatives from a range of other employment and training organisations including Charles Sturt University, TAFE, VERTO and Skillset. The evening was a great success with over 300 students and parents attending from both the Bathurst and Kelso campuses.

The evening was followed by individual interviews with parents and students so that they had the opportunity to make the most informed choices for 2016.

Senior Mentoring
A pilot senior mentoring program was initiated this year to support students in their HSC year who were aiming for a high ATAR. The program asked students to reflect on their own strengths and areas for improvement in order to help them achieve their potential.

Students in the Senior Mentoring program were placed in a roll call where a teacher provided daily support. A mentor teacher was also selected by the students and the mentor teacher interviewed students on a regular basis to ensure they were organised for assessment tasks and examinations and to assist with any individual needs. Students were also given access to a seminar room where they worked in study periods, free from distraction. Evaluations of the program by this year’s students were so positive that a senior mentoring program has begun for HSC ATAR students in 2016.

A little bit different this time. I wanted to highlight our wonderful school leadership group and congratulate them. They were inducted into their duties in front of their parents, school teachers and leaders at the leaders induction assembly on Tuesday 17th November. They were then presented to the whole school at the school assembly on the same day.

Geoff Hastings
Principal
**What’s Uni Like?**
On Thursday 29 October, following a ‘soft launch’ at each campus earlier this year, Denison College (Kelso High Campus) was privileged to host the national launch of a Massive Open Online Course (MOOC) developed by Charles Sturt University.

*What’s Uni Like?* is aimed at 14-22 year olds and helps them to explore if university is for them, what they should expect at uni and what academic skills they will need. It is a free, self-paced, online course.

Guests from several universities as well as local schools and community members enjoyed a brief performance by Cirkus Surreal and Bathurst High’s talented guitarist, Paul Batchelor, before hearing student leaders Emma Warburton, Annabel Tremain (BHC), Bailey Webber and Madeline Williams (KHC) answer questions about their experience of the course.

Guests were impressed with our student leaders and performers, as well as the catering by Year 11 Hospitality students.

For more information, visit [http://www.whats-uni-like.edu.au](http://www.whats-uni-like.edu.au)

**Transition Week**
The Senior Team (Mrs Chapman, Mrs Stirling, Mrs Murphy and Mr Hurford) report that Transition Week activities at both campuses were very successful. The first weeks of Term 4 are very important for Year 11 students, as it marks the commencement of their study for the Higher School Certificate.

Transition Week offers students the chance to meet with the Deputy Principal Senior School and the Head Teacher Senior Studies to review their progress and confirm their plans for the HSC year. For some students it is a time to change courses or otherwise amend their pattern of study. It is an excellent opportunity to reaffirm the College’s expectations of senior students, particularly those undertaking shared courses.

Craig Petersen  
College Principal
A Message from the Deputy Principal Senior School

Year 10 students may choose to be engaged in Work Experience during weeks 8 and 9. This work experience gives them the opportunity to sample some of their career aspirations. Mr Fox is coordinating this and students should already have their paperwork submitted. Students not going on work experience will attend school as normal and students will continue with the curriculum and preparation for year 11 in their classes.

The Year 10, End of Junior School dinner will be held on Thursday 10th December at the Bathurst RSL. Students will not be able to leave the venue early unless they are picked up by their parents. The Year 10 Commendation Assembly will be held on Thursday 10th December at 9.15am. All families are welcome to attend.

Year 11 students have started their HSC course and should all have assessment tasks to complete before the end of the year. Just a reminder to students and their parents of exam dates for 2016. Students must not take leave during this time.

- HSC Mid-Course exams – start in the week after the Easter long weekend on Tuesday 29th March and will conclude on the last day of Term 1 Friday 8th April
- HSC Trial exams – Monday 15th August to Friday 26th August

Year 11 students also need to ensure they hand in all assessment tasks on the due date. They lose marks for every day they are submitted late and after three days will get zero. If students are sick they need to get a doctor’s certificate and complete an Illness/Misadventure form and submit it to myself or the Head Teacher of the subject.

Thank you to Darren Hamilton for relieving as the Deputy Principal while I was on some unplanned leave.

Jenny Stirling
Deputy Principal
Senior School
News from the Middle School

Year 9 Camp
Not long at all until Yr 9 camp! I know Ms Withyman is busy finalising arrangements and organising cabin groups. A reminder that medical forms need to be completed on-line. If you require any help with this, or have any other questions regarding the camp, please contact Ms Withyman or myself via the front office. Students who are not attending the camp still need to come to school where they will be provided with lessons for the three days.

Year 8 Wet and Wild Excursion
All students should have received their notes about the proposed Yr 8 Rewards excursion on the 7th December. Students need to return the expression of interest note to Mr Lawler or Ms Hennessy as soon as possible so that we can determine whether we have enough numbers for the excursion to go ahead. It is guaranteed to be a great day – please contact Mr Lawler, Ms Hennessy or myself if you have any questions.

Year 9 / 10 Electives
I am in the process of finalising electives for next year. Our lines have been established and I am interviewing students who had line clashes or if one of their chosen electives is not running anymore. Every effort has gone into providing a structure that enables as many students as possible to study their chosen electives. Please contact me if you have any questions.

Wellbeing
The review of the school’s Wellbeing Draft policy is almost complete. Thank you to those parents who gave feedback. As part of the process, the PBL team surveyed a sample group of students on some of the current practices in the school. I am very proud that students identified staff responsiveness and individual support for students, as one of the most positive aspects of Bathurst High Campus. The final Wellbeing document will be available on the school website by the end of the school year, ready to be in place for 2016.

Visit to Yr 8 Visual Art
I had the pleasure of visiting a Year 8 Visual Arts class as they did their presentations on a surrealist artist. Part of the presentation was to dress up or use a prop that represented the artist in some way. I was very impressed by the effort and research that went into each presentation. I also had the opportunity to look at some of the high quality surreal artwork that the class had created. Congratulations Year 8 and to Ms Wood, their teacher!

Stephanie Scott
Relieving Deputy Principal
Middle School
In Week 5 students from Years 9 and 10 Visual Art and Photography attended Sculpture by the Sea at Bondi Beach. Students were able to interact with and photograph sculptures along the Bondi to Tamarama coastal walk. Despite the weather the students behaved wonderfully and had a great time!

### Please note....

**P & C**

Our next meeting will be on Wednesday 2nd December in the staffroom at 7.30pm. Hope to see you there.
EXPAND YOUR WORLD —
WITHOUT AN AIR-TICKET

Capture the spirit of fun and friendship in your own backyard!

Department of Education-registered Southern Cross Cultural Exchange (since 1983) wants to provide your family with a different educational and cultural experience. Your children will also have an invaluable opportunity to improve their foreign language ATAR score by living a few months with a native speaker at home as a ‘sibling’.

If you have a spare room and a place at the family table, why not begin next year with a new mission? Introduce a wonderful 15-17 year-old exchange student as a member of your family, and appreciate how your family sees the world, and each other, in a new light.

Enjoy sharing cultures with your exchange student from France, Germany, Italy, Japan, Finland, Denmark, Norway, Sweden, Canada or the USA for 3, 5, or 10 months. Call S.C.C.E. now on 1800 500 501 or email scceaust@scce.com.au or visit www.scce.com.au and ask for a selection of profiles of incoming exchange students.

Their faces say it all: these exchange students have successfully completed their exchange programs and have returned to their home country with a better understanding about Australian culture, all thanks to their fantastic volunteer host families.
A free workshop for parents and supervisors of learner drivers will be held by Roads and Maritime Services (RMS) in conjunction with Bathurst Regional Council at The Bathurst Memorial Entertainment Centre on Wednesday 18 November at 1pm.

The two hour workshop, **Helping Learner Drivers Become Safer Drivers**, will offer parents and supervisors hands-on advice on how to provide the most effective driving practice for learner drivers.

“Parents and supervisors of novice drivers have a crucial role to play in making our roads safer, and that is why the RMS has developed a course to better support them.” Council’s Road Safety Officer, Iris Dorsett said.

The course will cover topics such as:
- Supervising learner drivers
- Completing the Learner Driver Log Book
- The benefits of supervised on-road driving practice
- Licence conditions for learners and provisional licence holders

The New Safe Drivers Course

“Parents and supervisors who have attended this course found it to have boosted their confidence, helped them better plan driving sessions and allowed them to share experiences with other parents and supervisors” said Ms Dorsett.

The course, which runs from 1.00pm to 3.00pm reinforces the important role of families in providing ongoing support for young drivers in the early years of driving.

Bookings for the Helping Learner Drivers Become Safer Drivers course are essential and can be made by calling 6333 6517 during office hours.

---

**COUNSELLING for PARENTS, FAMILIES, and CHILDREN 12-18**

Confidential counselling and advice is available at Veritas House for a wide variety of issues including parenting, conflict, relationships between parents and children and friends, grief and loss, bullying, teasing, and much more.

Please ring Graham Palmer on 6332 2277 for more information about this free service.
Community notices cont...

The Safer Drivers Course involves two modules:

**Module one:** A three-hour facilitated group discussion on how to manage risks on the road. This will involve a maximum of twelve participants and will be delivered by a facilitator.

**Module two:** A two-hour in-vehicle coaching session to develop low-risk driving strategies. This will involve two participants and a coach. Course cost: $140

Participants must have completed 50 hours of actual on-road driving experience to be eligible for the course. Credits gained under the 3 for 1 scheme cannot be included.

Participants who complete the course will receive 20 hours credit recorded in their learner driver log book.

Our next courses will be held on:

**Sunday 15th November 2015 @ 9am**
**Monday 30th November 2015 @ 5pm**
